

JULIA KASANZEWA

BACKEND DEVELOPER & FOUNDER
WELLNESS BRAND | PART-TIME

SOFT SKILLS

- Warm, curious and genuinely people-oriented, makes others feel heard and brings calm energy into a team
- Communicates naturally across very different worlds, from technical deep-dives with engineers to casual conversations with non-technical founders and first-time users
- Easy to work with, straightforward, good at reading the room and takes initiative without needing to be asked
- Builds rapport quickly and makes collaboration between technical and non-technical sides of a team feel effortless
- Has pitched to investors and startup audiences, presented at public events, and gone through structured pitch training, complex ideas land clearly whether in a pull request, a document, or a room full of people
- Takes ownership seriously, flags issues early, documents decisions and leaves codebases cleaner than they found them
- Deeply interested in human wellbeing and nervous system health, not as a side interest but as a lived practice
- Trains five days a week, loves movement and is always up for trying something new or optimizing routines, which reflects a broader discipline and consistency that shows up in work too
- Thrives in deep-focus environments: sits down with a complex problem, works through it methodically and delivers something clean and well-documented

SKILLS

Backend Engineering

Node.js · Express.js · JavaScript · Python · Swift · Java · C# · Bash/Shell

API & Architecture

REST API Design · Microservices · Clean Architecture · Domain-Driven Design (DDD) · MVC · OpenAPI/Swagger

Databases

PostgreSQL · MySQL · MongoDB · Sequelize · Data Modeling & Normalization

Frontend & Full-Stack

Next.js · Vue.js · HTML · CSS · API Integration · State Management

AI & Machine Learning

CoreML · CreateML · Vision Framework · On-Device ML Inference · Image Classification

Design & Prototyping

Figma · Adobe XD · Canva · Wireframing · Rapid Prototyping · UX Testing · Wireframing · User Research · Persona Development · Assumption Testing

AI Tools & Productivity

Claude · ChatGPT · Cursor · Notion AI · Manus · Perplexity · Warp Terminal · ChatPRD · MagicPatterns · Descript · ElevenLabs · Higgsfield

DevOps & Cloud

Docker · AWS S3 · CI/CD Pipelines · Jenkins · Linux · Rancher · Kibana · Git (GitHub, GitLab)

Testing

Mocha.js · Chai.js · k6 · JUnit · Selenium · BrowserStack

Languages

German (Native) · Russian (Native) · English (Fluent)

Business & Entrepreneurship

Lean Startup Methodology · Business Model Canvas · Market Sizing (TAM/SAM/SOM) · Customer Discovery · Value Proposition Design · Product-Market Fit Validation · Investor Pitching · Go-to-Market Strategy · Pricing Strategy · Financial Planning

EDUCATION

- 2017 – 2022 BHT Berlin – University of Applied Sciences · B.Sc. Computer Science
- 2019 Erasmus+ Exchange · ISEP Porto · International Semester in Computer Science
- 2021 Institut Transzendente Medizin Berlin · Certified Hypnosis Practitioner
- 2022 – 2025 BHT Berlin – University of Applied Sciences · M.Eng. Print & Media Technology
- 2025 – 2026 EXIST Women Founder Program · Scholarship Recipient
Govt-funded startup accelerator — venture validation, investor readiness, go-to-market strategy, UX testing, market sizing

WORK EXPERIENCE

Hospitality & People-Facing Roles | Various · 2014 – 2019 · Minijob / Part-time

- Barista at The Coffee Shop, Berlin (Potsdamer Platz, Hausvogteiplatz, Auswärtiges Amt), building a natural ease with very different kinds of people and fast-paced environments
- Service staff at Brezel Connection GmbH, including large-scale events and festivals at Waldbühne and Olympiastadion, managing high-volume crowd service with composure and team coordination
- Hostess, promotion, and waiter roles at Cinnamon GmbH, delivering high-standard hospitality across various venues and events

Nanocosmos GmbH | Interactive Streaming Platform iOS & Backend Developer · Remote · 12/2020 – 01/2025

- Built and maintained scalable backend services using Node.js, Express.js, PostgreSQL, and Sequelize in a production microservices environment for a high-performance interactive streaming platform
- Designed REST APIs and documented in OpenAPI/Swagger; refactored legacy Sequelize queries improving performance and long-term maintainability
- Extended CI/CD pipelines (Docker, Jenkins, AWS S3); monitored live systems and resolved bottlenecks via Kibana dashboards
- Contributed to native iOS features in Swift and Objective-C; integrated internal SDKs and debugged UI App components in Xcode
- Built internal APIs connected to ActiveCampaign — automating marketing email workflows and linking backend logic to customer journeys

Rad-Börse | IT & Marketing Strategist · Remote · 09 – 11/2026

- Planned and delivered a complete WordPress + Hetzner website end-to-end: technical SEO (meta, schema markup, XML sitemap), GDPR compliance, Core Web Vitals performance optimization, and Google Analytics 4 setup — from discovery to live launch

Wellness Brand Founder | @juliakasanzeva · juliakas.de · 01/2026 – Present

- Founded and operate a D2C digital wellness brand: designed and built a WooCommerce e-commerce platform (WordPress, Stripe, PayPal, Google Pay) — managing all product, tech, and business operations as a solo founder
- Engineered ManyChat DM automation and email funnels (HubSpot, KIT); executed Lean Startup market research (TAM/SAM/SOM); ran data-driven multi-platform content strategy across Instagram, TikTok & YouTube
